ARPC provides reinsurance cover to more than 240 insurers (cedants) who themselves insure more than \$3.6 trillion in sums insured. While the *Terrorism Insurance Act 2003* mandates that insurers provide cover for terrorism, it is voluntary for insurers to buy reinsurance from ARPC. Insurers who enter into a reinsurance contract with ARPC lay off their terrorism liability to ARPC and their eligible insurance contracts are protected through ARPC's net assets, global retrocession program and the Commonwealth guarantee.
